

## ABOUT US

PURIN Polyurethane, which has entered the sector rapidly with its polyurethane R&D history based on years, was established in İstanbul in 2015. Our company, which continues its production, moved to Kocaeli in 2018 in order to respond faster to request domestic and international demands and continues its production here.

Taking its first step into the market by starting waterproofing membrane resin production at the beginning and continues to increase its diversity with membrane hardeners, Elastomer systems, adhesive groups and injection product groups until today. Especially as innovative approaches in Turkey Water Based Polyurethane Systems; It started to produce water-based coating and adhesives in its facility in Kocaeli, where it moved in 2018.

In addition to the products produced according to international standards with its expert technical staff, it can produce according to special customers and demands. Products are tested at every stage of production and especially during final controls, ensuring that high quality products are delivered to the customer.

With its current technical experience, making special projects for customers and aiming to open new ways for customers, by creating a rapid substitute for new intermediate products (prepolymers, polyol systems, process or application change), faster delivery and one-on-one technical support, both domestic and international We are an alternative to companies.

Our company aims at continuous development and improvement of the infrastructure, has obtained the ISO 9001:2015 certificate and the CE ( Certificate of Conformity) in the single component polyurethane injection product group in 2020 and raised all its production procedures to internationally accepted standards.

Our company, which aims to continuously introduce new products to the market, is a brand that responds quickly to the demands of its customers, offers direct technical support with its experience and expertise, and has a win-win relationship with all its partners. As PURIN Polyurethane top management, we assure and undertake to adopt it as an in-house quality culture and to report it to all relevant parties.
